PROFILE SUMMARY

Electronics and Communication Engineering student with hands-on experience in software development, full-stack web applications, database management, embedded systems, and IoT applications. Skilled in Java, Python, PHP, MySQL, HTML5, CSS3, JavaScript, and responsive web development.

TECHNICAL SKILLS

Programming: Java, Python, PHP, JavaScript, SQL

Web Technologies: HTML5, CSS3, Bootstrap, Responsive Web Design

Database & Backend: MySQL, CRUD Operations, Authentication, JDBC Basics

Embedded & IoT: Arduino, ESP32, RFID, Blynk

Tools: Git, VS Code, XAMPP, phpMyAdmin

EXPERIENCE

Technology Innovation Hub (TIH) – MKCE | Student Developer | 2025 – 2026

- Developed a Hostel Management System with role-based access, authentication, complaint tracking, and CRUD operations using PHP and MySQL
- Worked on backend integration, debugging, testing, and responsive dashboard implementation

PROJECTS

Hostel Management System | 2026

Tech Stack: PHP, MySQL, HTML5, CSS3, Bootstrap, JavaScript

- Developed a role-based hostel management web application for student records, room allocation, complaints, and fee management
- Designed MySQL database tables and implemented CRUD operations with authentication and session handling
- Built responsive dashboards and integrated backend functionalities using PHP, Bootstrap, and JavaScript

Blog Web Application | 2025

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap

- Developed a full-stack blogging platform with authentication, CRUD functionalities, and dynamic content management
- Integrated MySQL database using prepared statements to prevent SQL injection vulnerabilities
- Implemented responsive frontend design and backend routing using PHP and JavaScript

Animal Shelter & Adoption Management System | 2025

Tech Stack: PHP, MySQL, HTML5, CSS3, Bootstrap

- Developed a role-based web platform for managing pet registrations, adoptions, donations, and medical records
- Designed dashboards for Admin, Staff, Vet, and Adopter modules with backend database integration
- Implemented authentication, form validation, and centralized record management functionalities

RFID Smart Classroom Key Management System | 2025

Tech Stack: RFID, Arduino, Embedded C

- Developed an RFID-based authentication system with secure access validation and real-time activity logging
- Programmed Arduino microcontroller for RFID tag detection and automated access control operations

EDUCATION

B.E. Electronics and Communication Engineering – M. Kumarasamy College of Engineering, Karur

Expected 2027 | CGPA: 8.32(5th sem)

HSC – Trinity Academy MHSS, Namakkal | 83.33%

CERTIFICATIONS & ACHIEVEMENTS

- Cloud Computing – NPTEL
- German Language A1.1 – Inlingua Chennai
- Finalist – 24 Hour National Level Hackathon 'Sindhanai'25'
- Project Presentation – Dakshaa'25 & Srishi'26 Technical Symposiums
- Coding Contest Participant – KPR Institute of Engineering and Technology
